

Excellent performance

Easy operation

Various function

Stable & long life

CAS 160
CAS 250
CAS 350

The primary components of a product may not correspond with the image on catalog

FEATURES

1. Dividable structure at regular intervals in every 5 degree
2. Control function in 60° - - 60°(120°)
3. Easy system for regulating of degree and setting
4. Special frame to prevent interval by vibration in operation
5. Patent no. : 10-2005-0052454
6. High grade and light weight of aluminum stand
7. T-handle frame for easy setting and removal of motor
8. Using of heli coil for improvement of durability of base
9. Optional wheel for easy shift

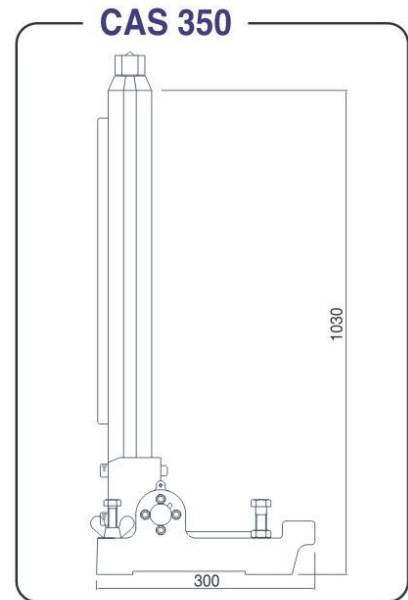

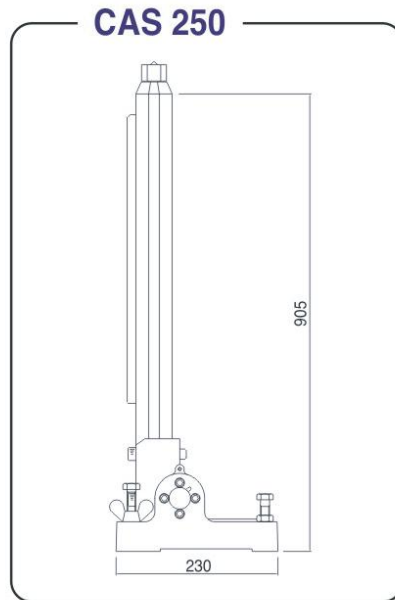

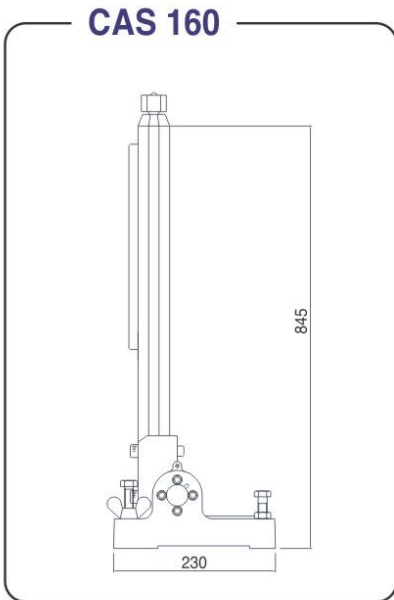

Specification

ITEM	CAS 160	CAS 250	CAS 350
Capacity (")	6	10	12, 14
Angle of division (°)	5	5	5
Max. Angle (°)	±60	±60	±60
Max. Inter val (°)	0.82	0.82	0.82
Base size (mm)	228x180x116.5	228x180x116.5	300x194x114
Effectual Length (mm)	490	525	600
Stand	□ 49	□ 55	□ 59
Weight (kg)	9.4	10.6	17
